

HOME TUTORING SERVICES

Home tutoring is provided for a student who, because of illness, will be absent from school for an extended period of time. The purpose of the program is to maintain programming, to sustain interest in learning and to help the student keep pace with his/her peers so he/she can return to school with the least disruption possible.

Requests for home tutoring are made by the school to the Superintendent's Department. If approved, the home tutoring program would be provided through the student's school by a person approved by the Superintendent.
