

Using Photofiltre to Create Andy Warhol Style Pop Art

1. Open Photofiltre. Then go to File – Open and find the picture you want to use.
2. On Photofiltre go to Adjust – Duotone

3. Choose the two colors you want to use.
4. Click OK

5. Save the picture in your folder.
6. Repeat with different color schemes until you have enough to create your Andy Warhol repetitive image.
7. Also try Adjust – Swap RGB channel.
8. Open Word, Publisher, or a photo editing program and place your photos in rows and columns. See next page for sample.
