Math Edition

Compiled by Ron Nordstrom, Technology Coordinator ph. 476-3305 rnordstrom@bpsd.mb.ca

Don't have Time to Find Good Web Sites to use in Your Class?

Check out the Beautiful Plains Website at <http://www.bpsd.mb.ca>

Click on **Teacher Resources** to find valuable links to web sites. Newest addition to the page is links for **Senior 3 History**.

Math resources on the net can be divided into two two categories.

- **Teacher sites** – sites you would not send your students to, but you can download or print pages that you can use in class.
- **Student sites** – Places you could send your students to complete math tasks. In many cases, in early years classrooms, it is a good idea to bookmark pages so your students can easily get to them without typing in web addresses. If you don't know how to bookmark a page, ask a colleague to show you, or ask me next time you see me in your school. You can also e-mail me and I will walk you though it.

Good Math Web Sites

Math Games for Kids

K – 6 play games online at:

<http://www.kidsdomain.com/games/math2.html>

The Math Forum

For students. Divided by Grade levels and includes early years, middle years and high school.

<http://mathforum.org/students/>
